

Civil Engineering lies at the core of James Jamieson Construction's service to its clients. We are a respected civil engineering contractor that provides environmental and civil engineering solutions to a diverse range of projects and clients.

Renowned for our competitiveness, we offer a best in class quality of service to our clients.

Our ability to share, if not exceed your aspirations is the root of our success. Our project management team have the experience, knowledge and passion to successfully deliver your projects not only on time, but within budget.

Big or small, James Jamieson Construction will meet the bespoke project requirements you desire.

"It is a pleasure to work alongside James and watch his interest and passion to make a project happen. He led his team with great zeal and there was a genuine pride by all to make sure a first class job was delivered."

Jim Milne - Managing Director, Balmoral Group
